# What is FOREX?

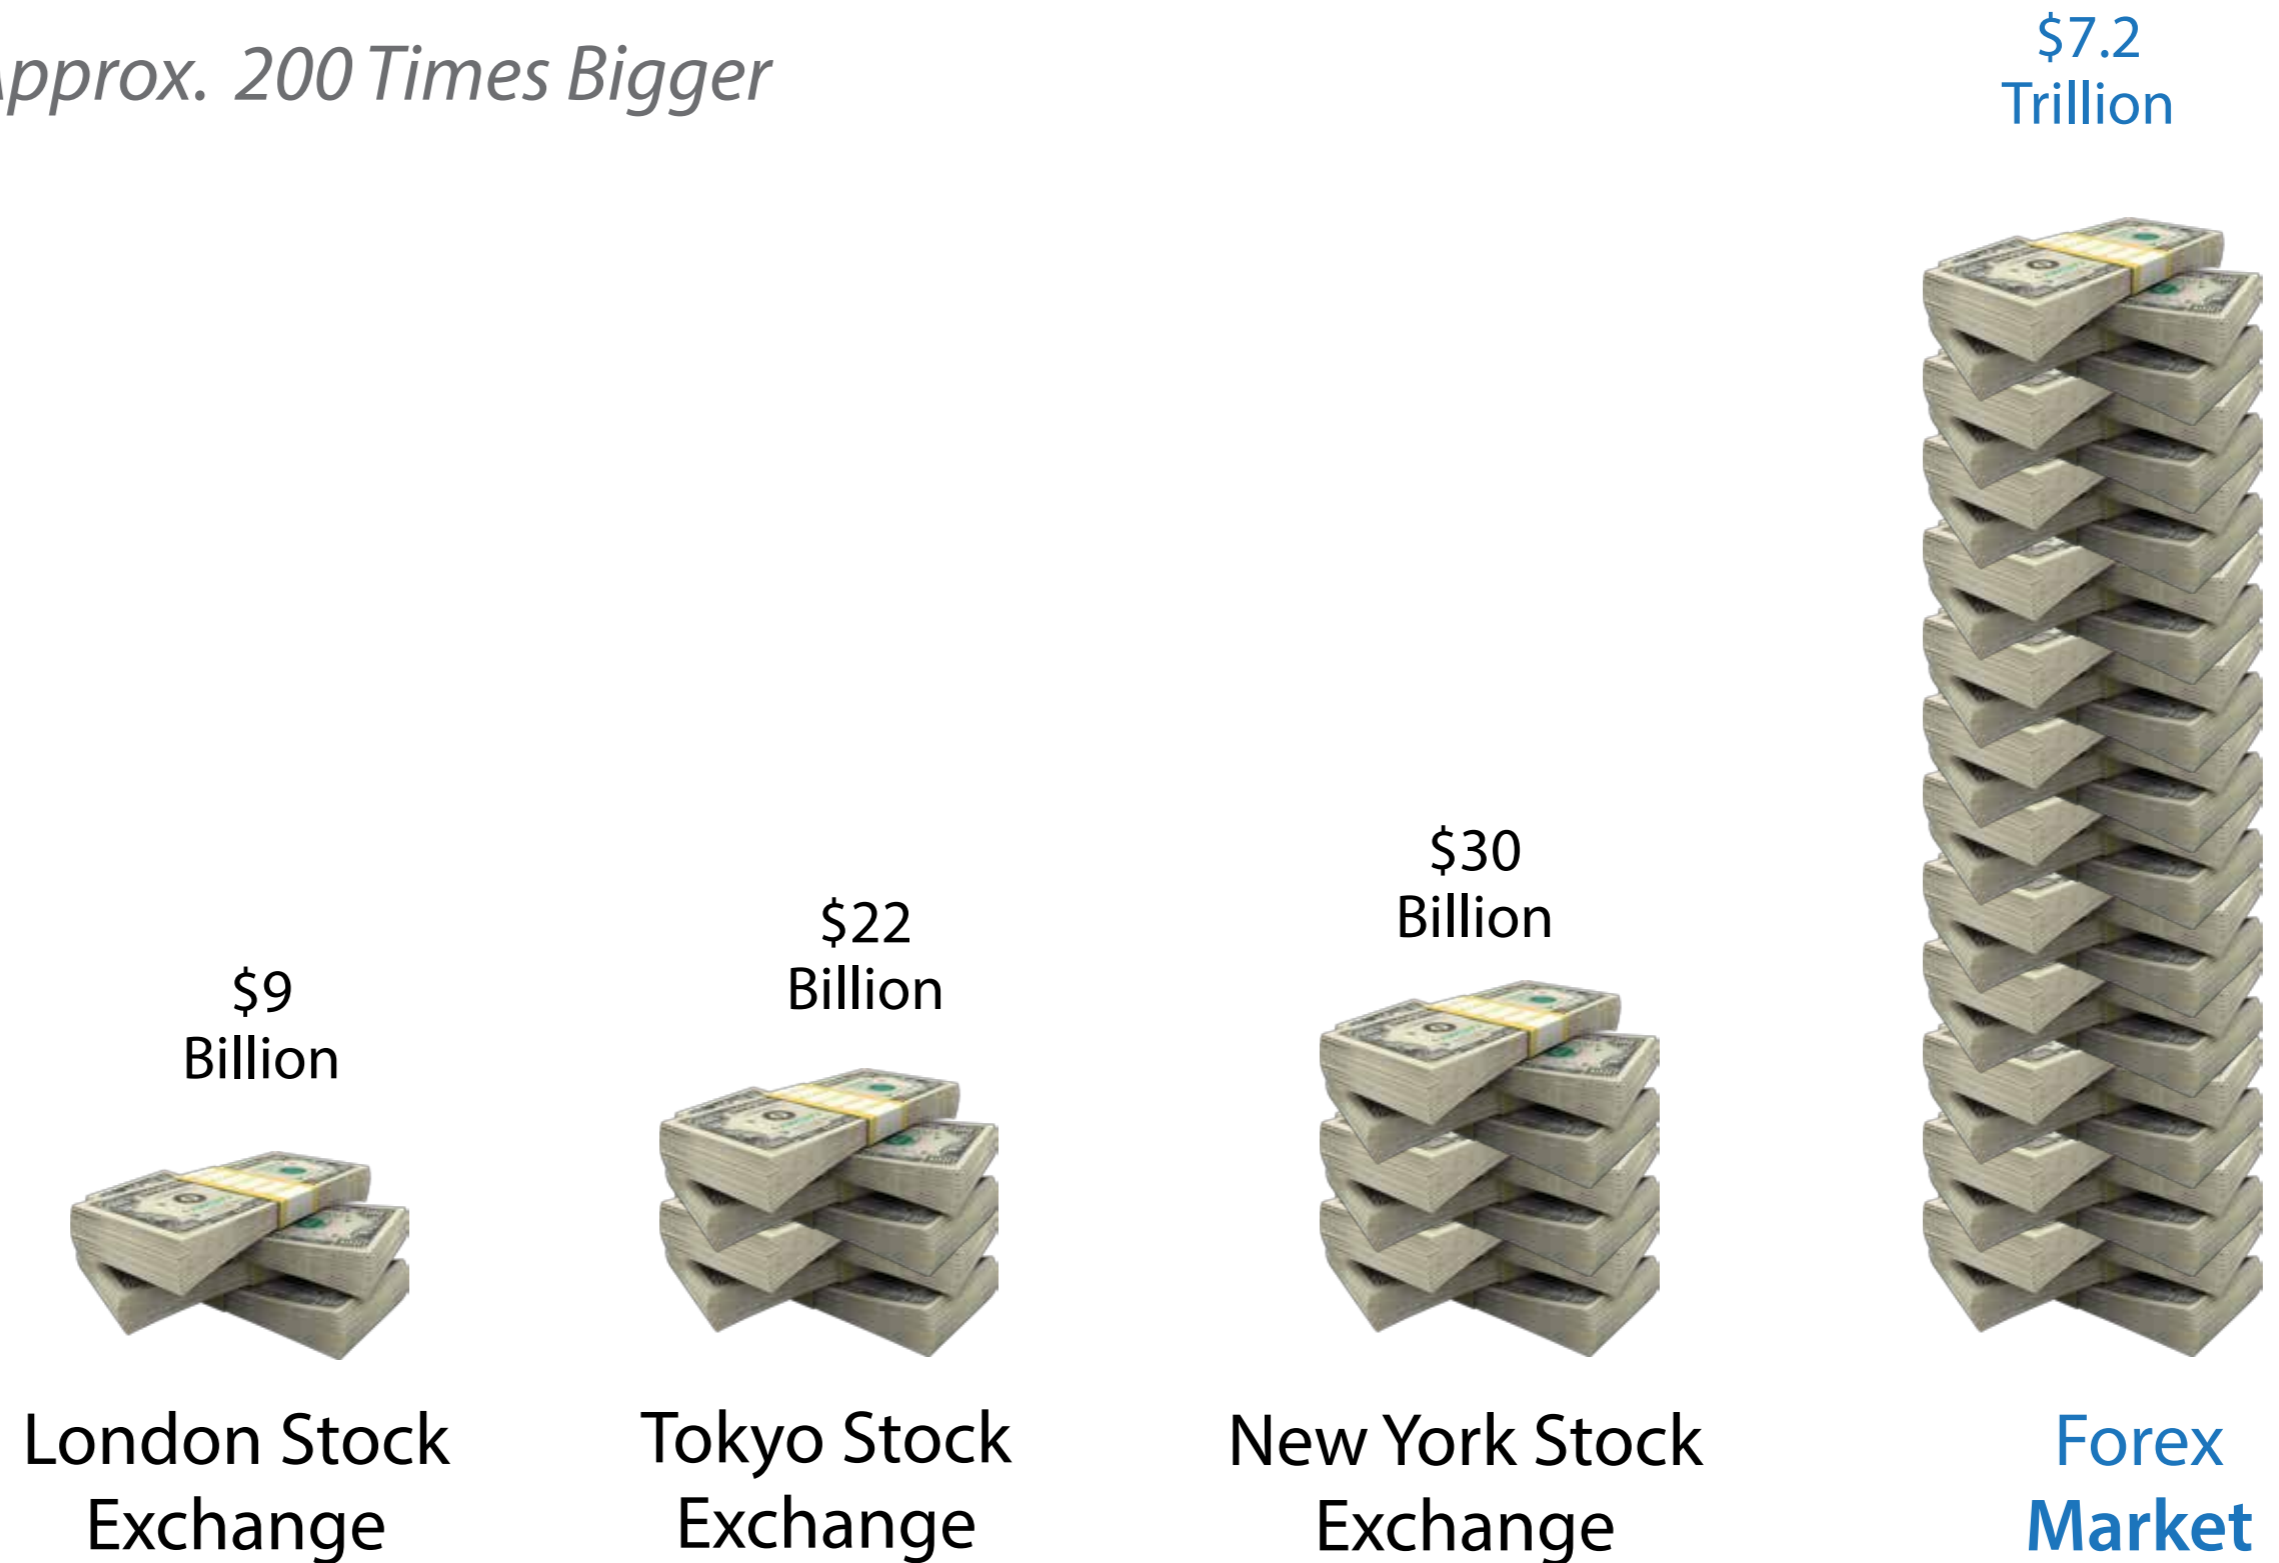

- An art of Buying and Selling foreign currencies for Profit.
- Forex Market is one of the Biggest Financial Market with \$7.2 Trillion transactions per day.
- In Forex trading when you buy, say the Great Britain Pound you are basically buying a “share” in the Britain's economy betting that it will do well and will even get better as time goes. Once you sell those “shares” back to the market, hopefully you will end up with profit.
- Currency symbols always have three letters and are used as shorthand for a currencies name.

**For Example: EUR, USD, NZD, AUD, JPY, GBP etc.**
